

Since 1972,
our customers have known they can
count on us
at every turn.

EXPERIENCE & INNOVATION

CUST-O-FAB has been providing quality products to its customers for years. We offer a complete package of equipment and service to our customers, both on and off the project site. Our experienced staff and innovative manufacturing techniques set us apart from other suppliers in the power generation industry. At CUST-O-FAB, we work hard to provide high-quality service and products, while staying on schedule and keeping costs low for our customers.

HRSG HIGH PRESSURE PIPING SYSTEMS

CUST-O-FAB performs fabrication and repairs of high energy piping systems including for SA/A335 (P5, P9, P11, P22, P91) and SA/A691 (1 ¼, 2 ¼, 5, and, 9 Chrome) for:

- Hot Re-Heat Piping (HRH)
- Cold Re-Heat Piping (CRH)
- Low Pressure Steam Piping (LPS)
- Main Steam Control Valves (MSCV)
- High Pressure Steam Valves (HPS)
 - Flow Nozzles
 - Thermowells
- Gama Ray Plugs (RT Plugs)
 - Drip Plots
 - Wye Blocks
 - Globe Valves
 - Stop Valves

Specialty Welding Capabilities:

- Qualified and Specialized Welders
- More than 800 certified welders
- Over 1,600 specialized welding procedures
- ASME Code welding and repair services
- Professional inspection, documentation, and turnover packages
